PROFESSIONAL SUMMARY

Final-year B.Tech IT student with hands-on experience in AWS cloud infrastructure, Infrastructure as Code, containerization and CI/CD through software engineering and DevOps internships. Experienced in provisioning and deploying cloud-hosted applications using AWS EC2, Terraform, Docker, Nginx and GitHub Actions, with additional experience in backend development using Node.js, Express.js and MongoDB. AWS Certified Cloud Practitioner seeking entry-level Cloud, DevOps and Infrastructure Engineering roles.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS, Docker, Terraform, Nginx, Linux
DevOps & Automation: GitHub Actions, CI/CD, Infrastructure as Code, Git, GitHub
Backend Development: Node.js, Express.js, REST APIs, MongoDB (Mongoose ODM), MySQL
Programming: Python, JavaScript, Java, C
Testing & Tools: Jest, Supertest, Postman
Frontend Development: React, Vite, Tailwind CSS, Typescript

EXPERIENCE

Backend & DevOps Intern | UPPCL — Uttar Pradesh Power Corporation Ltd. Jun 2026 – Jul 2026
IT Division, Lucknow | Backend Development · Cloud Deployment · Docker · Terraform · Nginx

- Built the backend for the Daily Revenue Monitoring Portal (DRMP), aggregating daily revenue data from 3 payment streams (Bank Wire, Payment Gateway, Billing System) across UPPCL divisions; designed 25+ REST API endpoints with JWT auth, bcrypt hashing, RBAC, and server-side validation.
- Architected 4 MongoDB collections (Users, Payment Submissions, Consolidated Reports, Audit Logs) via Mongoose ODM with an asynchronous audit-trail logging service, prior-date continuity checks, and PDFKit/ExcelJS report exports.
- Deployed the application on AWS EC2 provisioned via Terraform, containerized with Docker (non-root, multi-stage builds), and configured Nginx reverse proxy with Certbot SSL and a GitHub Actions CI/CD pipeline.

Software Engineering Intern | i2k2 Networks Pvt. Ltd. Jan 2026 – Apr 2026
Noida, Uttar Pradesh | Cloud & Managed Services Company

- Managed version control and branching workflows using Git & GitHub for collaborative backend code across real-world SDLC processes.
- Applied CI/CD pipeline concepts, Docker containerization, and AWS cloud infrastructure patterns in a professional DevOps setting.

PROJECTS

Daily Revenue Monitoring Portal (DRMP) | *Node.js · Express.js · MongoDB · Docker · Terraform · Nginx* | GitHub

- Built 25+ REST API endpoints with Express.js and MongoDB/Mongoose for daily revenue reporting across 3 payment streams (Bank Wire, Payment Gateway, Billing System); implemented JWT auth, bcrypt hashing, and RBAC.
- Engineered a client-side API adapter routing standard HTTP methods (GET, PUT, DELETE) through POST payloads to bypass firewall restrictions on non-POST traffic.
- Provisioned AWS EC2 infrastructure with Terraform, containerized the app with Docker (multi-stage, non-root builds), and configured Nginx with Certbot-managed SSL/TLS.
- Built a GitHub Actions CI/CD pipeline automating Docker builds, pushes, and zero-downtime EC2 redeployment; added async audit-trail logging and PDFKit/ExcelJS exports.

Portfolio Website with Automated CI/CD Deployment | *AWS S3 · CloudFront · GitHub Actions* | GitHub

- Deployed on AWS S3 + CloudFront CDN; zero-touch CI/CD pipeline via GitHub Actions on every push to main; HTTPS/TLS, IAM permissions, and caching configured for production-grade architecture.
- Personal portfolio site built with React and TypeScript (Vite); automated build-and-deploy workflow invalidates the CloudFront cache on each release for instant content updates.

Dockerized To-Do Application | *Flask · Docker · Nginx* | GitHub

- Containerized Flask app with Docker; configured Nginx as reverse proxy to simulate real-world deployment topology across environments.
- Implemented task CRUD routes and persistent storage; used a Docker Compose setup to spin up the app and reverse proxy together with a single command.

EDUCATION

Bachelor of Technology in Information Technology Sept 2023 – May 2027
Dr. A.P.J. Abdul Kalam Technical University (AKTU) | CGPA: 7.66

Intermediate (PCM) April 2022 – April 2023
Rani Laxmi Bai Memorial School, Lucknow | 84%

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02) — Amazon Web Services | Issued Jul 2026 [↗]

ACHIEVEMENTS & POSITIONS OF RESPONSIBILITY

- Class Representative — Coordinated between faculty and 60+ students; resolved academic and administrative concerns in a timely manner.
- Student Coordinator, Startup Spotlight (Skillancer Pvt. Ltd.) — Led end-to-end event logistics, participant engagement, and on-ground execution. [Certificate]
